SPECIAL ISSUE

FEEDING AND GROWTH OF BIVALVES: OBSERVATIONS AND MODELS

CONTENTS

B.L. Bayne (UK)
The physiology of suspension feeding by bivalve molluscs: an introduction to the Plymouth "TROPHEE" workshop 1

J. Grant, C. Bacher (Canada, France)
Comparative models of mussel bioenergetics and their validation at field culture sites 21

P.J. Cranford, C.W. Emerson, B.T. Hargrave, T.G. Milligan (Canada)
In situ feeding and absorption responses of sea scallops *Placopecten magellanicus* (Gmelin) to storm-induced changes in the quantity and composition of the seston 45

J.I.P. Iglesias, M.B. Urrutia, E. Navarro, I. Ibarrola (Spain)
Measuring feeding and absorption in suspension-feeding bivalves: an appraisal of the biodeposition method 71

A.J.S. Hawkins, B.L. Bayne, S. Bougrier, M. Héral, J.I.P. Iglesias, E. Navarro, R.F.M. Smith, M.B. Urrutia (UK, France, Spain)
Some general relationships in comparing the feeding physiology of suspension-feeding bivalve molluscs 87

G.S. Bacon, B.A. MacDonald, J.E. Ward (Canada, USA)
Physiological responses of infaunal (*Mya arenaria*) and epifaunal (*Placopecten magellanicus*) bivalves to variations in the concentration and quality of suspended particles. I. Feeding activity and selection 105

B.A. MacDonald, G.S. Bacon, J.E. Ward (Canada, USA)
Physiological responses of infaunal *(Mya arenaria)* and epifaunal *(Placopecten magellanicus)* bivalves to variations in the concentration and quality of suspended particles. II. Absorption efficiency and scope for growth 127

C.R. Newell, D.E. Campbell, S.M. Gallagher (USA)
Development of the mussel aquaculture lease site model MUSMOD©: a field program to calibrate model formulations 143

D.E. Campbell, C.R. Newell (USA)
MUSMOD©, a production model for bottom culture of the blue mussel, *Mytilus edulis* L 171

S. Bougrier, B. Collet, P. Geairon, O. Geffard, M. Héral, J.M. Deslous-Paoli (France)
Respiratory time activity of the Japanese oyster *Crassostrea gigas* (Thunberg) 205

H. Scholten, A.C. Smaal (The Netherlands)
Responses of *Mytilus edulis* L. to varying food concentrations: testing EMMY, an ecophysiological model 217

M. Fréchette, C. Bacher (Canada, France)
A modelling study of optimal stocking density of mussel populations kept in experimental tanks 241
